

# PDS

Mainstreaming groups in  
situations of vulnerability in  
evaluations

**UNITAR's experience, including**  
Lessons learned from the UNSWAP  
evaluation scorecard completion

# Women and girls

What works well	What remains challenging
UNSWAP 2024: Meeting requirements	Exceeding requirements
Quality assurance of evaluation reports checklist includes elements from guidance document	Finding consultants with attention to gender-sensitive evaluation
Lessons Learned series with meta lessons on gender inclusivity	
Categorization of recommendations	

# Persons with disability

What works well	What remains challenging
Database with disability status	Data not mandatory
	Finding consultants with attention to disability-sensitive evaluation
First reporting on UN disability strategy implementation for 2024 upcoming	
	Difficult to apply e.g. in peacekeeping military and police context

# Youth

What works well	What remains challenging
Database with age data	Data not mandatory, some data inaccurate
1 evaluation on youth-focused programming in which use was mainstreamed	Interviewing youth stakeholders, parental consent, more difficult with programming without direct youth stakeholders
Reporting on Youth 2030 strategy started in 2023, being prepared for 2024	
UNITAR youth strategy	
Supporting self-evaluation undertaking global youth outreach survey
